Investment Casting- Forging Precision Parts

Main Engine Products:

Connecting Rod	Push Rod	Cylinder Liners- Sleeves
Valve Tappet	Rocker Assembly	Ball Bearing Components
Belt Tensioner Bearing Component	Shafts	Starter Housing
Pump & Valve Parts		

Our Rod are fully machined to guarantee the removal of all surface imperfections in the forging, Each connecting rod is balanced and then shot peened to achieve the ultimate in strength and fatigue properties through checking special feature such bend, twist & centre distance of two bors such as connecting rods by Standard Gauges.

Product Range

Sonalika Tractor	Mahindra Tractor
TATA	Kirloskar
H.M.T. Tractor	Pigiout Geep & Eicher

MACHINE CONFIGURATION

VMC Machines (Vertical Machining Centre)

Accuracy:

Positioning Uncertainty (P): 0.010 mm

Repeatability (Ps Medium): 0.005 mm

CNC Machines (CNC Milling Machine)

Accuracy:

Positioning Uncertainty (P): 0.010 mm

Lath Machines

Accuracy:

Positioning Uncertainty (P): 0.025-0.030 mm

MANAGEMENT

Today we find ourselves living in an information and technological revolution where investment in continuous improvement and quality control methods has guided us along the way to satisfy the expanding needs and requirements of our customers.
